

Voodoo Car

Voodoo car, voodoo car, coming down the road,
Voodoo car, voodoo car, what a sight to behold,
Voodoo car you were put together with love and spanners,
Now you're names' on banners.

Working all night in my Uncles yard, tryin' a get that Ford 'T' to start.
The handbrakes' solid and the wheels are rusty, the Speedo's broke and the seats
are dusty.

Oo oo oo oo Voodoo car!

Well the car is old and the road is rocky,
But we got the notion it's gonna be ok,
The choke don't work but the fuel is flowing
As long as we can get a spark we'll get this baby going
Oo Voodoo car!

By the middle of June that car was rolling,
As it passed on by all the ladies were swooning,
Oh it wasn't so freaky the car arriving,
What scared everyone was that no-one was driving!

Oo Voodoo car

Oo 1950's Voodoo Car

Look left look right check the road is clear,
That baby's got a mind of her own and she's in gear,
Better ask your folks if it'll be alright,
To go check the voodoo car driving with headlights

Oo Voodoo car
