

Love Invention

You need steam if you're gonna fire that engine, my baby needs her love invention,

When we go walking to the top, she says 'hold me tight now please don't stop'

Hey Babe you better wait on,
Hang on baby you've got to hold on.

When we go out dancing on a Friday night, I'm hoping some fool don't start no fighting,

Yeah we're spinning, really rocking, I know she's got something I can put my heart in.

Hey Babe you better wait on,
Hang on baby you've got to hold on.

Then we go out driving real fast, that safety belt aint built to last,
We'll pull on over, gonna see some sights, and aint we gonna love it right through the night.

Hey Babe you better wait on,
Hang on baby you've got to hold on

Sweet little love invention,
Sweet little love invention,
Sweet little, whole lot of love invention.
