

There Go My Stars

Jerry wrote for stars all over the place, Heaven's full of 'em, so is outer space,

Not just a pretty face.

"Living is so lonesome and I haven't got a bean",

Get over it, throw yourself into the dream, and get what it means.

CHORUS

There goes my baby, love potion number nine,

Lucky lips, Yackety Yack, Student demonstration time,

And Stars shine brightly, like diamonds sparkling nightly through your life,

So like Jerry, shine!

All without a partner for the rocking numbers,

Brenda screams about needing Vodka and hey, maybe his aim aint so true,

But Hi-jack Billy takes her up on the chance,

Slips her a double, it's all over by the second round,

Love came from above!

CHORUS

CHORUS

Shine!

Cramped Up!

Charlie and Ed, they had the greatest idea,

Charlie said that he was driving, with his one good leg,

As long as they scored the drugs was all that mattered to Ed,

P.C Malloy said "see you later love" to his best one in bed, nothing was said

Later in the evening they all headed out into the night of the ill fated drug store robbery.

Cramped up! Oxy IO was just an experiment,

Cramped up! Everything it did was just like being dead,

And the last thing you'd do is go zombie in Haiti

But Charlie and Ed thought it was a great idea to escape there with their consignment of Oxy-Zombie

Ed, in a cold sweat, out of order on the border,

Charlie, looking kinda cool, limping with an authoritative air.

Ed in a cold sweat, out of order on the border,

Charlie cooler, limping with an authoritative air,

Oh Ed needed a hit before the plane touched down

On the eve of Voodoo Zombie hunting time, in Haiti.

PC Malloy said "see you later love" to the best one in his bed, later nothing was said,

And they all headed out to the night of the ill fated drug store robbery.

Mrs. Malloy was just putting the babies to bed

When everybody headed for the night of the ill fated drug store robbery.
